### Directors Corner

I am loving this cool weather, it is perfect for riding. Our chapter has been busy, busy, busy this past month. We had a good number of you that went to Wing Ding. I heard that everyone enjoyed the rally and the rides. We also had an excellent number that went to Chapter A's Fun Day, and another great turn out for our ride to the distillery. The TRC class was full and everyone showed up, but unfortunately they cancelled the class because of the weather. Hopefully Gary will get us scheduled for another TRC class as soon as he can. We have had some great rides and a lot of fun.

We will continue the fun this month, starting with our weekend getaway to Tellico Plains. We are looking forward to the relaxation, the rides, and spending time with friends. I can't wait.

On October 10<sup>th</sup> we are having a bon fire and wiener roast. We will be going to Tommy and Vicky Martin's house for this event starting at 3:00PM. Please make plans to join in on the fun, fellowship and of course the food. Bring your lawn chairs and a jacket to sit by the fire. I want to thank Tommy and Vicky for letting us come to their home for this as our yard is still a muddy mess.

## **Adventures of Dumbo**

Well this month was really a surprise month for me. I spent it with Goofy from Chapter S. Sid claimed him for going to the wrong Publix to join the chapter for a ride. Who would figure there is more than one Publix west of Athens. We did have quite a month. Between cycling and Vetting we traveled. I visited Chapter A's fun day. It was really neat they did a great job, Later on Goofy and I visited the Richland Rum Distillery in Richland, GA. I tried to get my trunk into a barrel but Donna kept me back, Goofy did not have any luck either. I was also able to visit my buddy Noah this month. As always he's a hoot. We had some friends come over from Australia to take in Wing Ding and tour some of the great ole USA. Tommy, Vicky, Sid, Donna and I met them for dinner in Conyers. I had to sit in the car, not much fun but at least I got out. Other than that not much more to write about. I am going to dinner in Madison at Ricardo's Kouzzina. Hope I don't eat too much remember I stay stuffed. Till the next time.

Ride safe and often,

Your Friend **Dumbo**

## CHAPTER A FUN DAY

### BACK TO THE 50'S

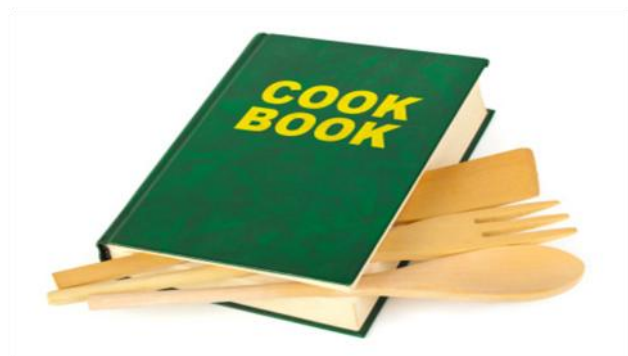

If you were not able to join Chapter T to Chapter A's fun day you missed out on a lot of fun. The Pink Ladies lead the Chapter in to the Chapter Feud.

There was a GWRRA trivia, Dancing and a hula hoop competition. Yes Chapter T won 1st place in the Chapter Feud. Gary Lewis won as Best Men Costume and T won most in attendance. Go Chapter T.

Enjoy the Pictures. Ride Safe. Carol Swanson

### Easy Fudge

- 1 ½ bags of chocolate chips
- 1 cup chopped walnuts

Toss all ingredients in a microwave safe bowl,  
melt till creamy.

Pour into an 8 x8 baking dish.  
Cool for 2 hours cut and serve.

### HOW TO READ YOUR TIRES

Just because they look OK doesn't mean they are. Tires are effected by heat, cold and the oxygen in the air. After a time they become brittle, crack, stiff and less resilient. It's a well kept secret by the tire industry that tires are unsafe after 6 or 7 years. Lets say you just bought a used bike the tires look new they were replaced last year so you should have many miles of worry free riding. Right, well maybe or maybe not. Also you go to the tire dealer to get a new set of tires. So how old are they really? How can you tell?

Here's how, on each tire there is a date of manufacture stamped on the side. For an example, it's the number "4209". In some cases, this will be prefixed with "DOT", as in "DOT4209". The first two numbers in the code is the week of manufacture - 52 weeks in a year, remember. The last two are the year - in this case, the 09 represents 2009. Some tires will have a longer string of digits, like "NA2M4206" - in this case, it's the last four digits we are interested in, so this example would be the 42nd week of 2006. What if your tire only has three digits? Throw it away! Tires made before 2000 used only one digit for the year. So a tire with the code "015" was made in January of 1995...or 1985!

Below is the month code for reading your tires. Use this and you'll increase your chance of having many years of safe riding.

01 - 05: January	28 - 31: July
06 - 09: February	32 - 35: August
10 - 14: March	36 - 40: September
15 - 18: April	41 - 44: October
19 - 22: May	45 - 48: November
23 - 27: June	49 - 52: December

## Stepping out side of the box!

Well this month I am going to step outside of the Ride Coordinator's box so to speak. Based on the GWRRA ARL (Members list), we have roughly 58 Members that live within the zip code area assigned to Chapter T. Well we have an average of about 15-20 of those members that actually participate with the Chapter. You know going on rides, cook outs, meet & eats, attending the monthly gathering, etc. Now, that leaves about 38 members that are missing out on a lot of good Riding, Fun and Fellowship.

So, if you are reading this Chapter Newsletter, I strongly encourage you to read the entire newsletter especially the upcoming events section as well as check and read your emails from the Chapter T Director, so you will know what rides and activities the Chapter has coming up. Sometimes the schedule has to change on short notice, so stay tuned and come and participate.

Okay, I hope you are still with me on this. Now for those members that have never participated with a Chapter, we would really like for you to join us. We have a great group of folks that will make you feel very welcome. You are Members of GWRRA and it won't cost you one red cent to attend the Chapter Gathering or go on Chapter Rides, other than the cost of gas, food and other item you may choose to purchase. Several of us show up for the Chapter Gathering at 6pm to eat dinner together and for a little extra time socializing and yes we do have to pay for our meal, however it is your choice to eat or not. The business part of the monthly gathering starts at 7pm, if you only want to attend that portion that is fine too. Now be advised it is not all business either, we have been known to have a large amount of fun during that time.

For those that haven't participated in sometime with a Chapter, we would really like for you to come and join us. We understand that everyone can't participate in every activity that the Chapter has scheduled, But as Ride Coordinator of Chapter T and an Officers of GWRRA, I do know that the Chapter Officers make every effort to plan and provide rides and fun activities for you to participate in. So now maybe it's time for you to step out of the box, get on that motorcycle and come join in on the FUN.

Ride Safe, Tommy  
Ride Coordinator

### It's Fall Ya'll

Well in case you did not already know it's FALL. I just can't wait until the weather starts to cool off. This time of year is my favorite time with Halloween and then comes Thanksgiving. Now, I think this will be the perfect time for our chapter to be riding to the mountains to see the leaves and of course visit the apple barn for those delicious apples. Chapter is on the move and going places so join in on the fun and ride with us. In case you don't like to trick or treat come along to the Region A rally on Halloween weekend and join Tommy and Me and have a great time visiting with all your friends. Hope to see each one of you out and about.

Remember. It's Fall Ya'll
